

ALI ALASHKAR

BACKEND DEVELOPER | SOFTWARE TESTER

3010,zahraa madint nasr,Cairo 01127718939 alialashkar654@gmail.com

<https://github.com/ali-ashkar> www.linkedin.com/in/ali-ashkar

SUMMARY

Computer Science student with a strong foundation in programming, problem-solving, and software development. Passionate about teaching technology and simplifying complex concepts for beginners. Experienced in developing academic and personal projects using C++ and Python, with knowledge of data structures, algorithms, object-oriented programming, and software engineering principles. Enthusiastic about inspiring young learners to explore coding, computational thinking, and technology through engaging and interactive learning experiences. Committed to continuous learning and helping build the next generation of digital innovators.

WORK EXPERIENCE

Telesales Customer Service “English account”

2024 - PRESENT

- Call potential or existing customers to sell products or services.
- Follow up on leads and persuade customers to complete purchases.
- Handle inquiries about products, prices, or availability.
- Solve problems, process orders, and assist customers with issues.
- Create a positive experience with every interaction.
- Gain customer trust and maintain loyalty.

Tabacaria Shop in first-settlement

2022 - 2024

- Train, motivate, and supervise the sales team
 - Assign duties and set sales targets.
 - Monitor employee performance and provide feedback.
 - Ensure high standards of customer service.
 - Handle customer complaints or difficult situations
 - Build customer relationships to encourage repeat business.
 - Analyze sales data and improve performance.
-

EDUCATION

Bachelor of Computer Science

Ain Shams University

Department of Information Systems

2023 – 2027

GPA: 2.9/4.0

Relevant Coursework:

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Database Systems
- Operating Systems
- Software Engineering
- Software Testing
- Artificial Intelligence

PROJECTS

1. OS Project 2025 (Assembly/C)

An educational operating system developed in C demonstrating core OS concepts including process management, virtual memory with paging, user-kernel space separation, and system calls. Emphasizes memory protection and low-level architecture.

- **GitHub:** https://github.com/ali-alashkar/ali-alashkar-OS_Project_2025

2. Gym Management System (C++/Qt)

A comprehensive gym operations system built in C++ with a Qt-based GUI. Manages members, staff, coaches, workouts, subscriptions, bookings, and padel court reservations using object-oriented programming principles.

- **GitHub:** <https://github.com/ali-alashkar/Gym-Management-System>

3. MERN Booking System (JavaScript/Full-Stack)

Full-stack appointment booking platform using the MERN stack featuring JWT authentication, role-based access control (user/professional/admin), complete CRUD operations, and Swagger API documentation.

- **GitHub:** <https://github.com/ali-alashkar/mern-booking-system>
- **Topics:** REST API, JWT, MongoDB, Express.js, React, Node.js

4. Cinema Management System (C#)

A cinema operations management system built with C#. (Recently created - repository appears to be in early stages)

- **GitHub:** <https://github.com/ali-alashkar/cinema-management-system>

5. Student Management & Attendance System (JavaScript)

A system for managing student records including attendance tracking, homework assignments, and quiz scores.

- **GitHub:** <https://github.com/ali-alashkar/Student-Management-Attendance-System>
-

SKILLS

- **Programming & Software Development:** C++, Python, SQL, Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Engineering, Database Systems, Debugging, Code Optimization.
- **Computer Science Fundamentals:** Operating Systems, Software Testing, Database Management Systems (DBMS), Artificial Intelligence Fundamentals, Problem Solving, Computational Thinking.
- **Development Tools & Technologies:** Git, GitHub, Qt Framework, Visual Studio, VS Code, Command Line Tools.
- **Cybersecurity & Emerging Technologies:** Cybersecurity Fundamentals, Network Security Concepts, Web Security Basics, Penetration Testing Fundamentals.
- **Teaching & Communication:** Technical Communication, Presentation Skills, Mentoring, Knowledge Transfer, Classroom Engagement, Student Support.
- **Professional Skills:** Teamwork, Leadership, Time Management, Adaptability, Critical Thinking, Project Coordination, Continuous Learning.
